

Project Equity

From Health Disparities to Health Equity
in Connecticut

ENGAGE STAKEHOLDERS

360° view

Survey board, staff, state agencies, community partners, health care providers, insurance carriers, and customers for their views on how Access Health CT is positioned to promote health equity in Connecticut.

HARNESS THE DATA

Data-driven approach

Conduct a thorough analysis of the latest data on health burdens, leading health indicators, and social determinants of health by race, ethnicity, language, gender, age and sexual orientation. Harness that data in a dynamic, online dashboard.

PRIORITIZE NEEDS

One size does not fit all

Respecting the adage "**Nothing for the community, without the community,**" and guided by our data dashboard, Access Health CT will work with communities across the state to prioritize and tackle their greatest health burdens and obstacles to health equity. New service and product offerings may emerge.

EXPLORE & PILOT HEALTH EQUITY OFFICE

Health and wellness outreach, education, and programming

Pilot a new Health Equity Office within Access Health CT to offer medically sound, culturally competent health guidance to our customers and their communities, focusing on **PCPs, preventive care,** and **leading health indicators** in Connecticut's multicultural populations.

COLLABORATE. CONNECT. CONVENE.

Unify Connecticut's health equity efforts so we're all pulling in the same direction.

Access Health CT is positioned to play the role of convener, connector and catalyst on a statewide level to unify the efforts of state agencies, hospitals and healthcare systems, providers, insurance carriers, funders, community groups, community health workers, and businesses that are working for health equity.
