Addressing Maternal Health Inequities in Los Angeles County for Black Birthing Individuals

Project Goal

Increase Postpartum/Prenatal (PPC) rates for Black birthing individuals in LA County to the targeted county benchmark population

Interventions will focus on the following 3 Levels

**Community**

Local Activation: Priorities developed and owned by people living in the neighborhood

**SDoH Partnerships**

Alignment with national SDoH priorities

**Member**

**Member Interventions**

Leverage existing programs to support member disparity reduction

**Provider**

**Provider Support**

Partner with providers serving the community and members. Provide support for member interventions
