

The pursuit of the highest possible standard of health for all people is the heart of CareOregon's values and mission.

We recognize the process of achieving health equity and the creation of an inclusive and diverse work environment includes the intentional deployment of resources to identify disparities and redress them when found. It also requires giving special attention to the needs of those at greatest risk of poor health, based on social conditions and socially defined constructs, such as racial categories and poverty.

Our Vision

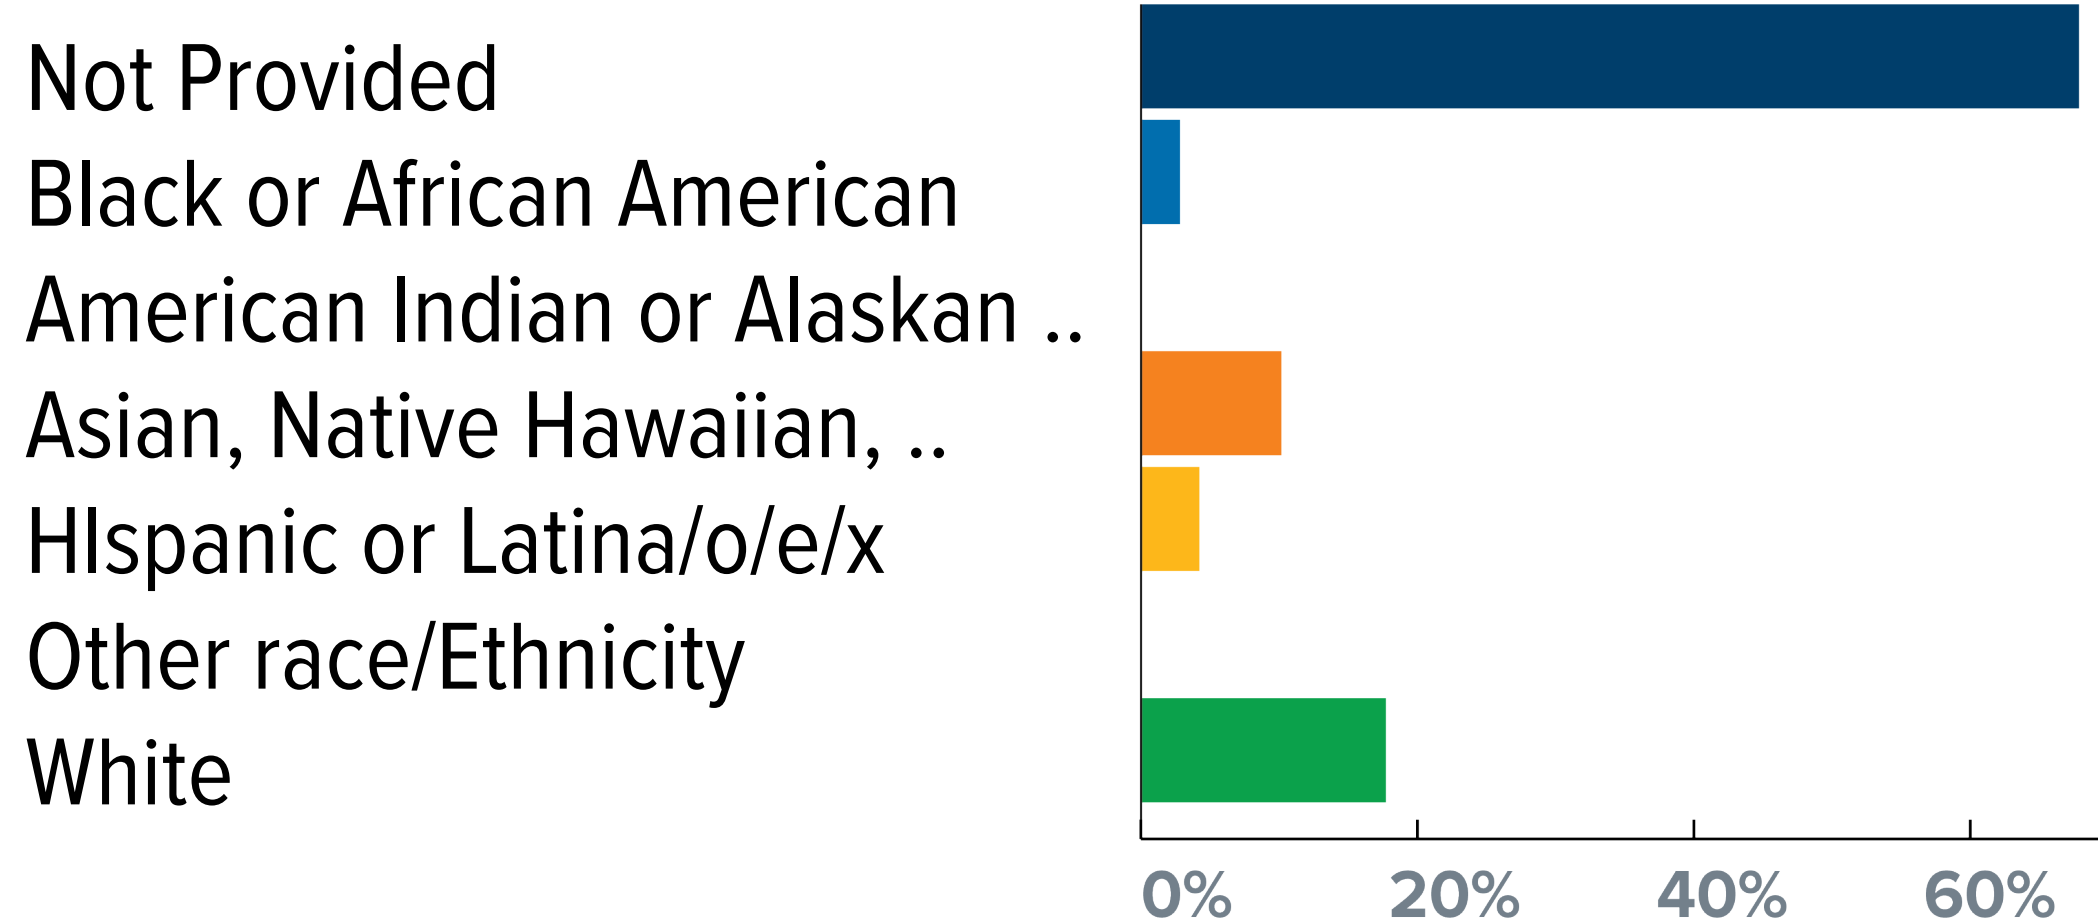

Healthy communities for all individuals, regardless of income or social circumstances.

Our Mission

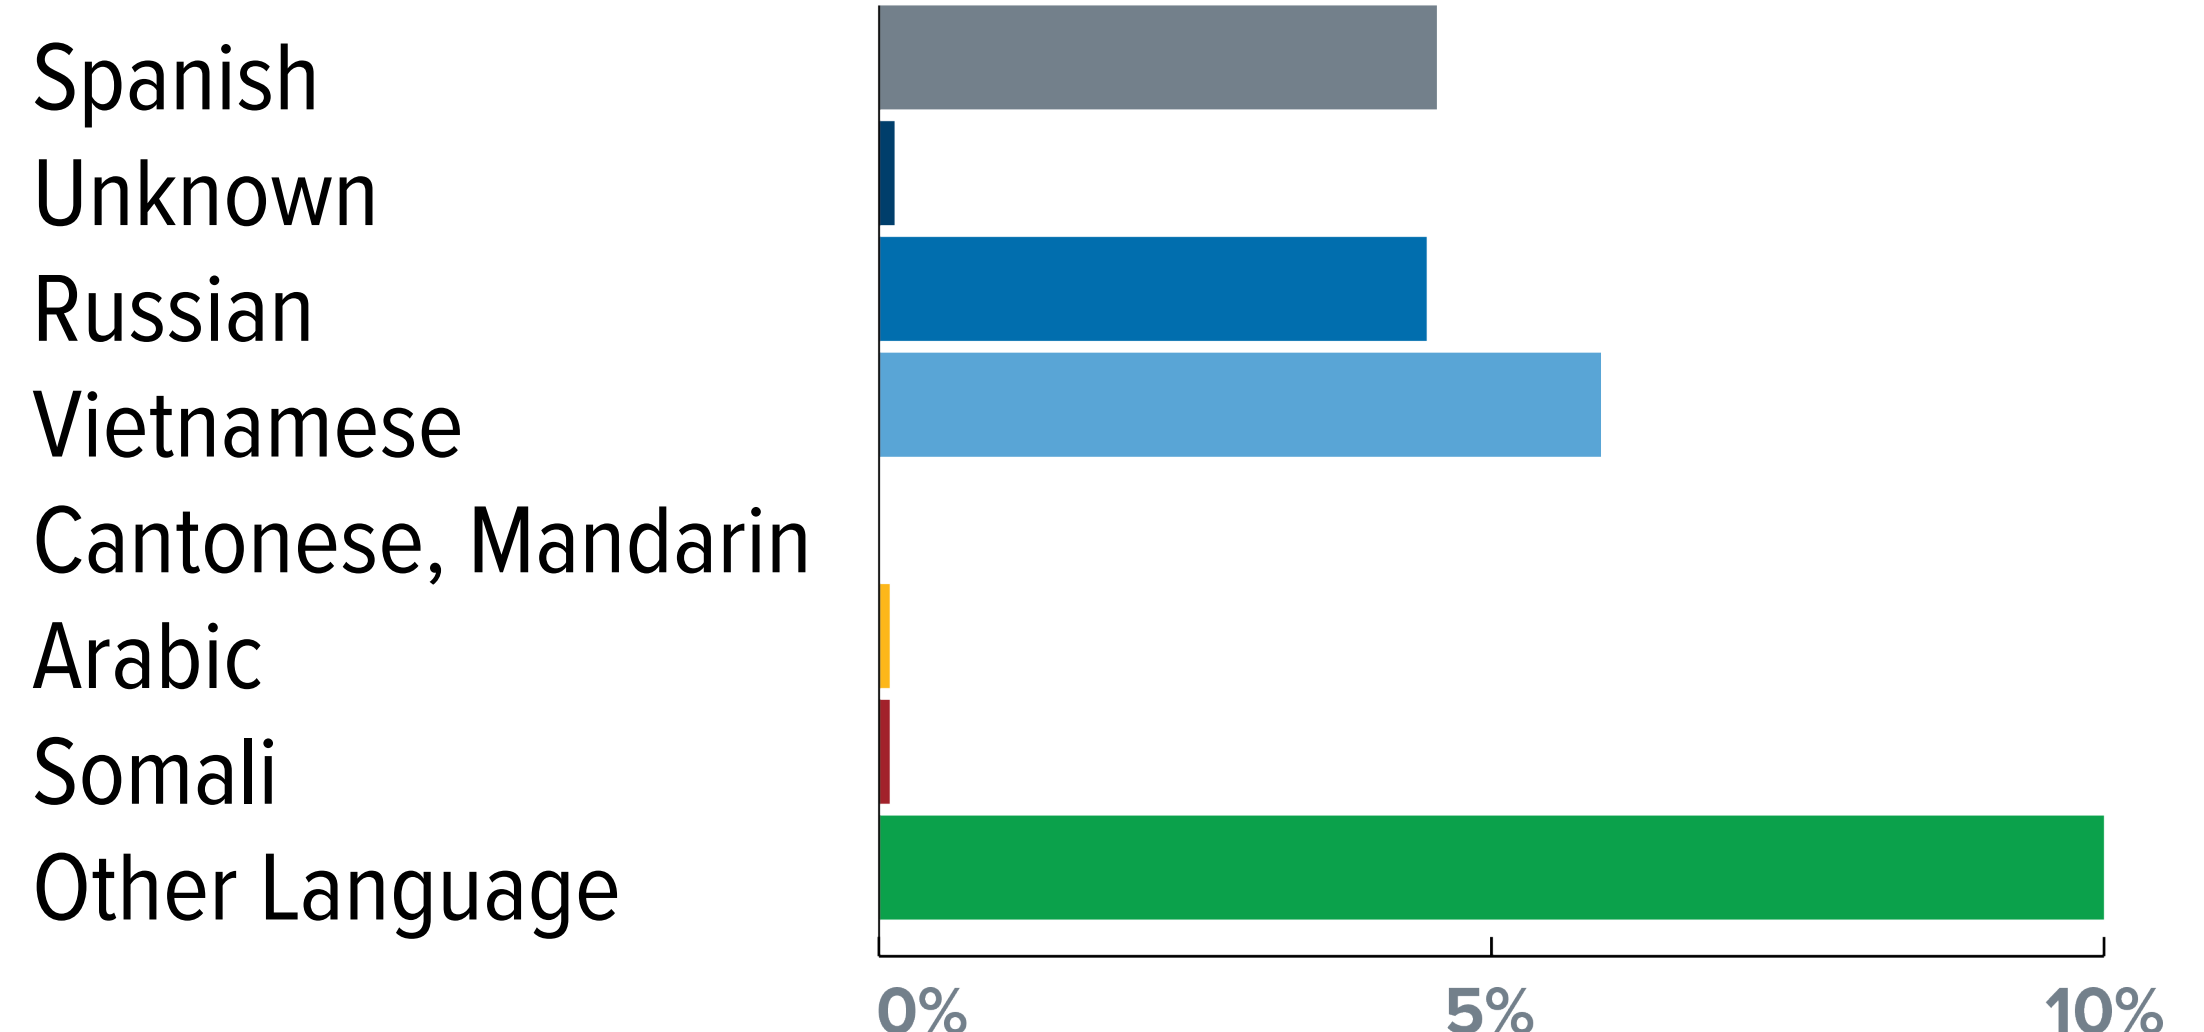

Inspire and partner to create quality and equity in individual and community health.

Our Members

Race/Ethnicity

Spoken Language (English hidden)

Empowering Action

Member voice is part of the process

Disaggregated program data
Accessible data

Aligned across Medicare and Medicaid

External Partnerships

Incentivize equitable health outcomes in value-based contracts

Increase access to culturally specific healthy foods
