

2024 Massachusetts General Hospital Biomedical Research Internship Program

**Massachusetts General Hospital Biomedical
Research Internship Program Timeline**

The Massachusetts General Hospital Biomedical Internship Program aims to support students' early interest in biomedical research sciences by offering opportunities to conduct original investigative research and contribute to our basic and translational understanding of human health and disease. Interns will be under the close guidance of a carefully selected primary faculty lead mentor. [MGH Biomedical Research Internship](#)

<p>Application Opens: November 30, 2023</p> <p>Application Closes: Monday, February 5, 2024, 5 p.m. ET</p>	<p>All questions listed on the application are required and help us best determine internship placements.
